- in place of rank indicates team whose rank is based on fewer than 2 scores.

* in place of rank indicates team whose rank is based on fewer than 3 scores.

The program starts all teams with an equal arbitrary value and then
 adjusts them all recursively based on game scores until the lowest cumulative
 error between expected goal differentials and actual goal differentials is
 reached (convergence). One effect often noticed is that a team's rating can
 change slightly without playing due to previous opponents playing which affects
 their rating and their opponent's rating, etc.
